Damage Agreement

I _____, representative of the _____ high school sailing team, agree to pay for damages to a Western owned boat if my team should be at fault for the damage. A protest committee will be held responsible to determine who is at fault in a collision which results in damage to a competing boat. I will respect the protest committee's judgment and pay an appropriate amount (to be determined through an agreement with Jeff Davis, Lakewood Manager) for the necessary repairs.

I am signing the above agreement in lieu of a damage deposit to keep the costs of this regatta affordable for all sailors.
